

## **Effective Date for Courses Approved for the TCU Core Curriculum**

Courses approved for the TCU Core Curriculum (TCU CC) will officially be included in the TCU CC in the semester immediately following the one in which the course is approved. For example, a course approved during a fall semester will become part of the TCU CC in the following spring semester.

An exception to this rule will be made for the 2005-2006 Academic Year.

- If a course offered during the Fall 2005 semester is approved for the TCU CC by November 1, 2005, the course will immediately be included in the TCU CC and students enrolled in the course will receive the appropriate core credit for the course.
- If a course offered during the Spring 2006 semester is approved for the TCU CC by March 20, 2006, the course will immediately be included in the TCU CC and students enrolled in the course will receive the appropriate core credit for the course.

For the exception to apply, the course approved must be following the syllabus that was submitted in the approval process.
